SATHYA N

Data Analyst | SQL | Power BI | Python

Ambattur, Chennai | +91 8015721559 | sathya010605@gmail.com | www.linkedin.com/in/sathya-n-778223373

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in SQL, Python, Power BI, Excel, and MySQL. Skilled in data cleaning, exploratory data analysis, ETL, data modeling, DAX, and dashboard development. Built an end-to-end Business Intelligence project analyzing 20,000+ orders and 5,000+ customers through 45+ KPIs and interactive dashboards. Seeking an entry-level Data Analyst role to transform data into actionable business insights.

TECHNICAL SKILLS

- **Data Analysis**: Data Cleaning, Data Transformation, EDA, ETL, KPI Analysis, Reporting
- **Programming**: Python, SQL, R
- **Databases**: MySQL, Database Design, Data Modeling
- **Business Intelligence**: Power BI, Power Query, DAX, Dashboard Development
- **Python Libraries**: Pandas, NumPy, Matplotlib, Faker
- **Excel**: Pivot Tables, Lookup Functions, Charts, Data Analysis
- **Tools**: Git, GitHub, HTML, CSS, JavaScript

EXPERIENCE

Full Stack Development Intern — May 2025 – Jun 2025

BIG-SI-BUCKS Innovation Private Limited | Thoraipakkam, Chennai

- Collaborated on the development and testing of web application modules using frontend and backend technologies, reducing bug resolution time by ~20%

Artificial Intelligence Intern — Aug 2025 – Oct 2025

VIPS.TECH Services — AI Training Program | Nallur, Red Hills

- Prepared datasets for further analytics and machine learning workflows conducted exploratory data analysis (EDA) to identify patterns and summarize key statistical metrics across 5+ features per dataset

FLAGSHIP PROJECT

FalconBuy — Retail Business Intelligence & AI Decision Support System

Technologies: Python, SQL, MySQL, Excel, Power BI, Pandas, NumPy, Data Modeling, Faker lib, ETL | 2026

- Designed and developed an end-to-end retail analytics solution using Power BI, SQL, Python, and Excel to analyze sales, customer, product, inventory, shipment, and store performance
- Designed an optimized star-schema data model using **fact and dimension tables**, covering 5,000+ customers, 20,000+ orders, 500+ products, and 25 stores
- Authored 100+ DAX measures across 45+ KPIs (Revenue, Profit, AOV, Profit Margin, Sales Performance); performed data cleaning, transformation, and ETL using Python (Pandas) and SQL
- Built interactive Executive, Sales, Customer, Product, Inventory, Marketing, and Shipment dashboards with slicers, drill-through, bookmarks, and dynamic filtering
- Delivered actionable insights through KPI cards, trend analysis, Top-N analysis, regional performance, and customer segmentation to support data-driven decisions

GitHub: https://github.com/Sathya8015/FalconBuy-Business-Intelligence.git

ADDITIONAL PROJECTS

Smart Putaway System — Data-Driven Inventory Analytics App **Jan 2024 – Mar 2024**

- Designed a normalized MySQL schema across 5+ storage zones; developed 10+ SQL queries to optimize storage placement, reducing lookup time by ~30%
- Designed a data-driven warehouse inventory management application using **Python, MySQL, and HTML**, implementing rule-based storage recommendations to optimize product placement across multiple storage zones.
- Developed a normalized **MySQL database and analytical SQL queries** to track inventory, analyze storage utilization, and improve product lookup and retrieval efficiency

Project URL: **https://sathya8015.github.io/smartputawaysystem/**

E-Commerce Analytics Web Application **Jun 2025 – Aug 2025**

- Built user-behavior tracking across browsing, cart, and checkout events; optimized cross-device performance for consistent rendering on 4+ screen sizes
- A web-based e-commerce application built to track and analyze user behavior across the shopping journey
- The project implements behavior tracking across key funnel stages — browsing, cart activity, and checkout events — to capture how users interact with the platform
- It's optimized for cross-device consistency, rendering reliably across 4+ different screen sizes (responsive design for mobile, tablet, and desktop)

EDUCATION

Bachelor of Computer Applications (BCA) **2023 – 2026**

Vel Tech Ranga Sanku Arts College, Avadi | CGPA: 8.04 / 10.0

12th Standard (CBSE) **2022 – 2023**

Vivekananda Vidya Kala Ashram, Thiruvallur | 79.8%

CERTIFICATIONS & TRAINING

- **Power BI Industry Seminar** — Certified Participant, Cyber Softskill Solutions Academy Pvt. Ltd **Sep 2025**
- Dashboard creation, data modeling, DAX calculations, KPI visualization
- Gained practical knowledge of transforming raw data into meaningful insights by creating relationships between datasets, designing calculated measures, and developing visually interactive reports and dashboards to support data-driven business decision-making
